2024 ACTIVELY C.A.R.E. GOALS

SAFETY GOALS

Reduce the rate of Serious Injury and Fatality (SIF) potential (non-mitigated) incidents involving a LifeBelt breakdown by 10%

DEVICES, INCLUDING CELL PHONES, ONLY

OPERATE ALL VEHICLES

OUT/TRY OUT TO ISOLATE

PERFORM PRE-JOB PLANNING TO CONTROL AND REMOVE SIF HONOR BUFFER BARRICADES

ENVIRONMENTAL GOALS

EMISSIONS-FOCUSED GOAL

SPILL-FOCUSED GOAL

performance

Maintain normalized Greenhouse Gas Emissions (GHG) from FY23

WORKING AT HEIGHTS

PRACTICES WHEN HANDLING

PATH OF MOVING **FOUIPMENT**

EQUIPMENT TO PREVENT DROPPED

INTEGRATED PERFORMANCE TOOLS

Create an integrated Pre-Job Planning (PJP) tool that will provide a single tool for rig crews to improve total performance

REDUCTION OF **ENERGY EXPOSURES**

Improve H&P's energy isolation and barrier systems to identify exposures where crews are not currently enabled and provide resources that effectively control these energy sources

LONG-TERM GOAL

Proactive management of third-party exposures (people, equipment and processes) to keep everyone safe

LIFEBELT ASSURANCE

OBSERVE

APPROACH

CARE

Implement an assurance process that includes Success Checks and in-person workshops to effectively evaluate the effectiveness of the LifeBelt program, ensuring that they are well understood and consistently followed by all stakeholders

COACH CYCLE

Care: invest in others

Observe: reinforce safe work practices and correct at-risk behaviors

Approach: be proactive when you see something

Converse: provide specific, behavioral, timely and sincere feedback

elp: communicate for understanding, provide recourse, and remove barriers
